

Daly City Record Keeps Open House

The Daly City Record in keeping with newspaper week, has opened its doors to its reading public. Citizens were invited to "come in and look us over," on Thursday and Friday of this week.

Up to the time of going to press we have greeted old friends and new, as well as many school children, who seem to express especial interest in the mechanical precision of the Blue Streak Linotype. This machine seemed to them almost human as it painstakingly performed each necessary step of its part toward the manufacture of your newspaper. The large cylinder press continued the good work to the finished product.

This office welcomes visitors at any time.

Yeah! Come in and look us over!

ANNUAL DERBY OFFERS MANY CASH AWARDS

Many Fishermen To Revel At Event And Vie For Prizes To Be Awarded

Thousands of anglers, hailing from all parts of California, are overhauling their tackle in preparation for the fifth annual Bass Derby at Rio Vista, the coming Sunday.

The forty-four awards total \$1000. Following is the list of prizes: First, \$300; second, \$200; third, \$100; fourth, \$75; fifth, \$50; sixth, \$30; seventh, \$20; eighth to fifteenth, \$10 each; sixteenth to forty-fourth, \$5 each.

All awards will go to fishermen for heaviest bass taken within a well marked restricted area of the Sacramento River and Steamboat Slough on Derby Day. The fishing area will be in the Sacramento River from the Three Mile Slough bridge, south of Rio Vista, to Sycamore Park north of the city, and in Steamboat Slough from its confluence with the Sacramento River to a marker approximately one and a half miles above Swager's Resort. Fishing hours will be from 8:30 a. m. to 3 p. m.

All that is necessary to enter the contest is a California anglers license and a fishing card from the Derby committee. These cards may be had from Derby headquarters at Rio Vista Hotel, day or night. There is no charge of any kind.

Rio Vista townspeople are bent on making the 1937 Derby the biggest one to date. More than 8000 fishermen lined the banks of the Sacramento River to participate in the event last year.

Chief Reardon said there had been no bank robbery at Daly City. Local authorities believe that the Texas police have confused the names of cities.

GO FOR JAUNT ON STOLEN GAS

Daly City Service Station Attendant Gives Up Eight Gallons To Bandits

Charged with attempted robbery, Winfield Radhahn, 27, San Francisco, admitted holding up Dave White at his home on Angus avenue, San Bruno, according to San Bruno police.

Radhahn's adventures started in San Francisco recently when he was picked up by Ray Favero, 433 Excelsior street, Balboa High School football player, and his friend, Dave Madrid, 71 Regent street, out for a ride in the car belonging to Favero's father.

According to the youths, Radhahn displayed a gun and forced them to drive out Mission street. At a service station at 6252 Mission street, Daly City, Radhahn pointed the weapon at the attendant, Dan Aguirre, 3155 San Jose avenue, and ordered him to put eight gallons of gasoline into the car's tank, Favero and Madrid told police.

An hour later, at 10:30 o'clock in San Bruno, Radhahn saw White at the door of his home. Radhahn left the car and the youths drove away.

Madrid and Favero were soon afterwards apprehended by Sergeant Sunderland of Daly City Police at San Bruno, and—because their story seemed full of loop holes—they were later transferred to the county jail at Redwood City. Police believe them just as guilty as Radahn, who soon joined them in the county "cooler."

USE OF RACE HORSES AS MACHINES IS BAD

By J. W. MARCHBANK

Dividend mad promoters never did racing any good and never will. The thoroughbred pastime is debased when men go into it to make money. Once the shekel gathering motive becomes uppermost in the mind of the man at the head of a racing plant the end is in sight for that particular plant. Those ideas have been advanced by me more than once and I am extremely glad when I find clear-headed thinkers agreeing with me.

John L. Hervey, who writes under the name of "Salvator," recently put himself on record as favoring the abandonment of commercialism. We all know that commercialism has become rampant since more than thirty states legalized pari mutuel wagering on contests between thoroughbreds. In the Thoroughbred Record "Salvator" truly says:

"Racing was, in the beginning at least, pre-eminently a hot-blooded diversion. As we look back over its history, we may, starting with the chariot race described by Homer in the Iliad, and coming on down through the ages to modern times, trace a steady flow of hot—and often red-hot—blood coursing through the chronicle. But in recent times and in our own country, most particularly, we have been steadily turning it into a business, whose major objectives are the paying of dividends to the promoters and taxes to the state, all other things having sunk into minor positions, with a few honorable exceptions."

The phrase "a few honorable exceptions" has a peculiar appeal to me. It has always been my notion dividend mad promoters are out of place in conducting a race track. Racing, I repeat, is a sport and not a business.

Some tracks are so much out of line they even issue statements boasting what a big part of "big business" they are. That point of view makes it plain the promoters have reduced the horses to flesh-and-blood money-getting machines.

San Mateo Jaysee Loses To Bears

University of California frosh defeated San Mateo Junior College 7 to 4, in a closely played game on a soggy Berkeley field, Saturday of last week.

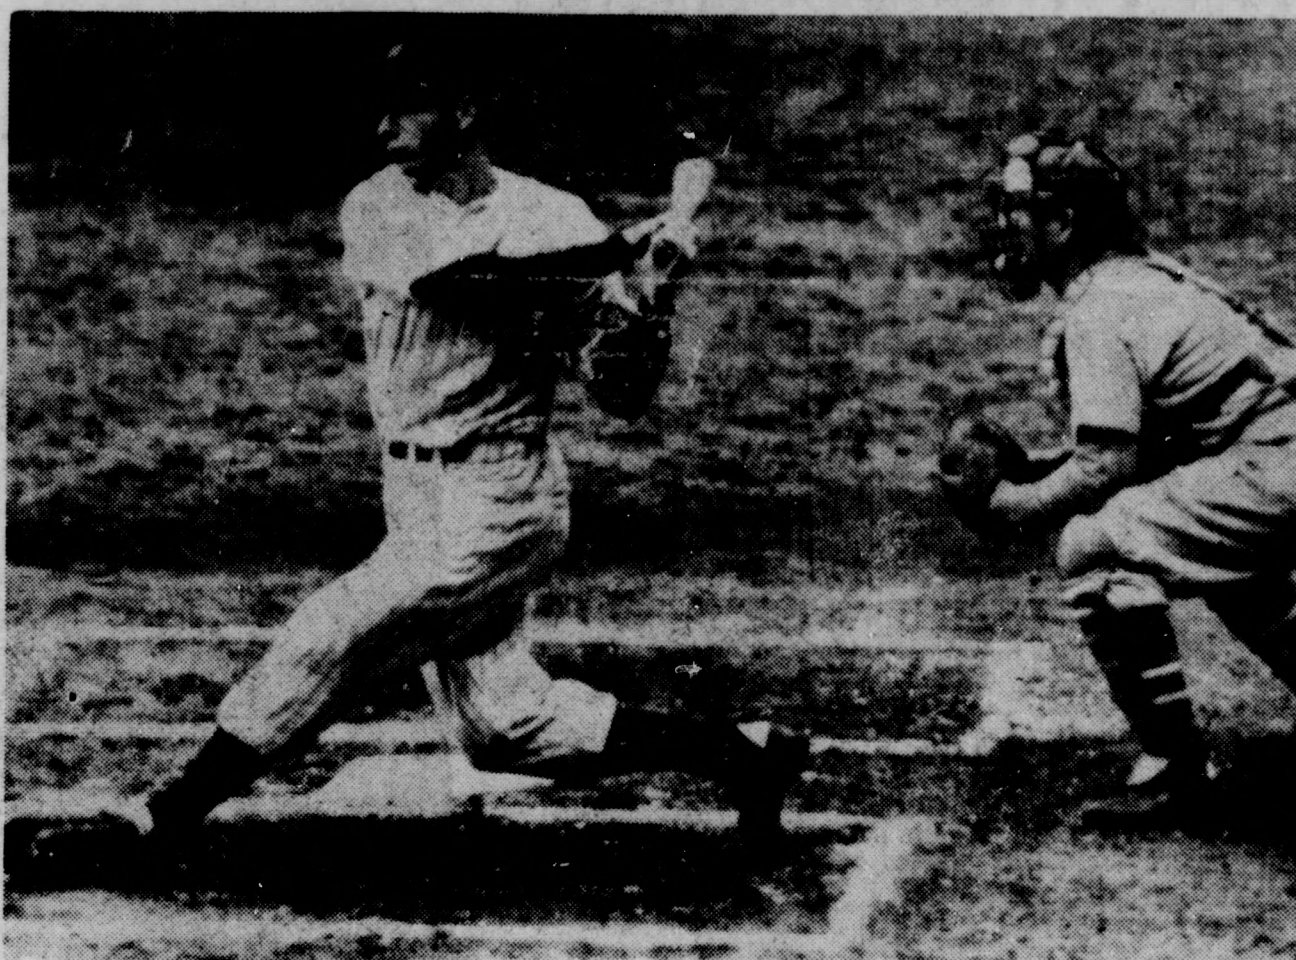

In the third period, the San Mateans marched to the California six-yard line, with Vance Peters providing most of the motive power of the attack. The Bear frosh stopped the march. Lutes, back to punt behind the goal line, touched the ball down for an automatic safety to give San Mateo two more points and end the scoring for the day.

Signs Will Mark D. C. Safety Zones

Yellow and black safety signs are to be installed at salient crossways in Daly City. The signs are inscribed with the legend, "Stop When Pedestrians Are In Cross Walk."

They will be centered in the pedestrian lanes at the junctions of San Jose avenue and Bepler street and Templeton avenue and Mission street and at Mission street by the Bank of America. The signs are eighteen by twenty-four inches.

Di Maggio Connects For A Single In World Series Opener

Joe Di Maggio, Yankee center outfielder and erstwhile San Francisco Seals' ace, is pictured here slugging a single off Carl Hubbell, Giant moundsman, in the first inning of the World's Series opener in New York. Joe hit out another single in the sixth, which brought in two runs. The only Yankee run which was not scored in the sixth was Toni Lazzeri's homer in the eighth with no men on.

Students Inspect Ferry Postoffice

The low fifth grade, accompanied by their teacher, Mrs. Burns, were escorted through the Ferry Postoffice, located near the ferry building, one day last week. The child-like interest and curiosity in the process of sending and receiving mail

was satisfied when the interesting guide showed the children how the mail arrives by steamship, rail and plane.

The group was taken through the various floors of this well equipped building, where it was explained how addresses written in a foreign tongue are translated, how the stamps are automatically cancelled by machine, how the mail is sorted into the districts by being put in small boxes similar to our own mail box. Thus,

the mail carrier collects his particular allotment in the form of letters, papers, magazines, small packages, cards, etc., and delivers them to our very door.

A more comprehensive and appreciative understanding of the duties and responsibilities of the federal postal service to the population was thus purveyed to this enthusiastic group of young citizens.

INDIANS LOSE INITIAL GAME

Local Boys Are Scalped By Burlingame Panthers In Hard Fought Battle

Beginning P. A. L. competition this season, the Jefferson Indians clashed with Burlingame last week on their home field.

Burlingame kicked off to the Indians, who carried the ball down to their 40 yard line. Here the Indians took to the air lanes, but didn't get very far before Burlingame snagged one of their passes.

Burlingame tried to crash through the Jefferson line, but could make no headway until the Indian reserves were placed in the game; then the Burlingame Panthers marched through the line for a full 30 yards to a scoring position. Here the Burlingame fullback plowed through the center of the line to score the winning goal for the Panthers.

Exceptional in this game was the fine running done by Compagno and Stevens, a newcomer from Mission High, assisted by some wonderful blocking by Wright.

SURVEY INDICATES MORE MEN AT WORK

By J. W. MARCHBANK
Pioneer in Frontier Mining Work

Industry reports employment is at the 1929 level. Secretary of Labor Frances Perkins estimated weekly payrolls in the manufacturing and non-manufacturing industries surveyed increased \$8,400,000 from July to August. As compared with August, 1936, the August, 1937, payroll survey showed a gain of \$64,100,000.

President Roosevelt has contended all along that industry would gradually cut down the burden of relief by taking men and women off the relief rolls. There has been a tendency in certain quarters to discount the assertions of the chief executive—but, as in most cases, he is to be credited with knowing what he is talking about.

The gains recorded in manufacturing payrolls and employment would have been much higher except for temporary shutdowns in the motor car industry in preparations for the manufacture of new models.

The unemployment census now under way makes use of federal agencies. The heaviest part of the work falls on the Census Bureau and the Postoffice Department. Once the enumeration is complete an inventory of unemployed may be kept thereafter. About 80,000 mail carriers will deliver 31,000,000 questionnaire cards to homes before December 1.

Administrator J. D. Biggers has been holding conferences with leaders of agriculture, industry and labor in regard to the postcard count of the unemployed. He says that the census will be taken, tabulated and completed by March 31, 1938, at a cost of less than \$5,000,000.

The "General" of the big count declares that sample house-to-house tests will be made of the mail census immediately after it is completed, in undisclosed communities, as a check of its accuracy.

He points out the major difficulty is in formulating the questions to be written into the blanks and holds that the registration plan should be satisfactory.

Financial circles understand the Treasury Department is anxious to

persuade Sir Frederick Phillips, Under-Secretary of the British Treasury, to agree to an exchange of information on foreign investments. Some economists hold that taxation of the income of non-resident aliens cannot be handled properly unless the principal nations cooperate in exchanging information about foreign funds in each particular country. It is thought to be a method of getting at foreigners who seek to evade taxes at home and abroad.

James M. Landis, who retired recently as chairman of the Securities and Exchange Commission, indicated in his last statement that legislation will be sought to segregate Stock Exchange brokers and leaders. Wall Street is opposing the move, claiming the situation is already covered by the securities act, which, it is said, prevents the broker from abusing his position by reason of his interest as principal.

Members of the House Tax Committee and treasury officials are reported in Washington to be considering the broadening of the income tax base. It has been suggested that in the event of a reduction of exemption in the lower brackets that a withholding system be adopted under which the tax would be withheld and paid by the employer of the taxed person.

PREVENTORIUM FALLS SHORT OF GOAL SET

Campaign Will Be Continued Indefinitely In County Says President

Continuation of the funds campaign by the San Mateo Preventorium for an indefinite period was announced this week by the president.

Only \$7,750.75 of the goal of \$10,000 was raised by the drive just concluded, according to officials. Added to the \$2000 in subscriptions, obtained last August, this gives the Preventorium but \$7,750.75 to conduct its affairs for a year.

Cost of operating the Preventorium a year is \$12,000 or more. Thus, while the campaign is officially over, colonels in the drive have agreed to continue contacting people asking their support to the Preventorium, in order that it may continue to remain open.

Lesson Sermon Of
Christian Science

"Are Sin, Disease, and Death Real?" will be the subject of the Lesson-Sermon Sunday, October 10, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The Golden Text will be: "The law of the Spirit of life in Christ Jesus hath made me free from the law of sin and death" (Rom. 8:2). Other Bible citations will include: "For ye were sometimes darkness, but now are ye light in the Lord: walk as children of light: . . . Proving what is acceptable unto the Lord. And have no fellowship with the unfruitful works of darkness, but rather reprove them. . . . Wherefore he saith, Awake thou that sleepest, and arise from the dead, and Christ shall give thee light" (Eph. 5: 8, 10, 11, 14).

The Lesson-Sermon will also include the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "All reality is in God and His creation, harmonious and eternal. . . . Therefore the only reality of sin, sickness, or death is the awful fact that unrealities seem real to human, erring belief, until God strips off their disguise. They are not true, because they are not of God" (p. 472).

OBSERVATION OF
VARIOUS THINGS
IN OUR CAPITALDefinition Of "Freedom Of
The Press" And Explana-
tion Therefor Stated In
Detail

(By Hart Goodrich)

Off and on we hear the cry of curbing the freedom of the press and the much louder answering cry, "No!" Efforts to curb the press have been pretty amateurish and clumsy in this country, if we are to judge these attempts by foreign standards. Cedric Larson, of the staff of the Library of Congress, has just published in Princeton University's Public Opinion Quarterly a detailed study, based on documents difficult to obtain elsewhere, of just how Adolph Hitler managed to remove the obstacle of an independent press in Germany.

The formula he used is so basic that it can be applied anywhere in the world and, unfortunately, is applied in countries where dictatorships flourish.

1. Newspapers should print nothing but the truth. This is almost universally admitted. It is doubtful if even the sometimes bothersome Constitution guarantees to anybody unrestricted freedom to lie.

2. Enact laws prohibiting publication of falsehoods.

3. Define truth according to your own ideas.

4. Shoot or throw into jail anybody who prints anything that deviates from truth.

The whole formula hinges on the third step—the dictator's definition of truth.

Hitler realizes the power of the press and in his famous book, "Mein Kampf," he says newspaper readers are divided into three classes:

First, the overwhelming majority who believe everything they read in the papers.

Second, the small minority who believe nothing they read in the papers for no better reasons than those for which their neighbors believe everything.

Third, the still smaller minority who use their own judgment on

what to believe and what not to believe.

The first class, Hitler believes, should be taught nothing but what the state wishes the people to believe. The second, a small minority, can be dealt with easily, as can the third class, which either finds itself before the firing squad or in "concentration" camps.

All journalists must have a license as dentists, doctors and lawyers are required to have in the United States. The license may be revoked at any time and the journalist is subject to heavy fines and imprisonment if he writes anything remotely detrimental to the Nazi movement.

It should be with a great sense of gratitude that we celebrate Newspaper Week in this free land. We may print the truth—what we, ourselves, honestly, believe to be the truth—not the view of others on the subject.

So long as newspapers are upheld in the right to express all the details of skulduggery in high places, including the government "high finance," labor unions and "big business," the establishment of an American dictatorship is practically impossible.

Federal Theater
To Stage Comedy

Negotiations have been completed by the San Francisco Federal Theater Project for the production of Julian Thompson's uproarious comedy success, "The Warrior's Husband." The play has been put into rehearsal under the direction of Ralph Freud and the technical department is working on an elaborate scenic mounting.

"The Warrior's Husband" deals comically with the expedition of Hercules into the land of the Amazons and it is made into an amusing entertainment partly through the customs of those fabulous times when modesty, gentleness and docility were the qualities most admired in a man. The play calls for a cast of nearly 100.

Plans Near Completion For Hard Times Dance On Hallowe'en Eve

Daly City Unit No. 410, American Legion Auxiliary, held its regular meeting, Wednesday evening of this week.

Plans are being completed for the Barn Dance the evening of October 30. This is to be a Hard Times Dance and much fun and entertainment has been promised. Mrs. Eula Jakobsen and Larry Reilly are chairmen.

The many committees under the general supervision of the president, Alice Reilly, are working hard for the bazaar, November 13, an all day affair with lunch served at noon and dinner at 6 p. m. There will be dancing in the evening. Many beautiful things have already been finished by the Sewing Club, which meets every week. The next sewing will be at the home of Eula Jakobsen, 332 Miriam street, Wednesday evening of next week.

There will be an afternoon whist at the home of Claire Durkee, 64 Vista Grande avenue, next Thursday at 1:30 p. m.

Delegates and many members will attend the district meeting in Redwood City this evening. The district officers will be installed by the drill team.

October has been designated as Activities Month. All units are busy getting their many projects under way and promoting their programs for the entire year. The first item of business is membership. A full quota by November 11 is the goal.

District President Jessie Zant was a distinguished guest at the meeting.

USE SECOND GEAR

Second gear should be used on down grade when traffic is heavy, thus avoiding excessive use of the brakes.

The car can also be kept under better control, in addition to a considerable saving of wear on brake linings.

WHAT A MAN DOES

When a man does only what he must do, he will remain all his life in the rank and file. He will always have to be ordered about. It is what a man does of his own accord that counts.—Anon.

AT HIS EXPENSE

Jill: "Clarence told me that the local hospital was built entirely at his expense. Is it possible?"

Jack: "Well, his uncle cut him off with a shilling and left the rest of his money to build the hospital."

Yankees Take N. Y. "Civil War" Series Opener, 8-1

Concentrating their heavy fire on one big seven run inning, the New York Yankees whipped Carl Hubbell and the Giants, 8 to 1, in the first game of the 1937 World Series before 60,000 fans. Joe Di Maggio got the first and only hit off Hubbell in five innings. His timely single in the sixth with the bases loaded brought in two runs and laid the ground work for the big rally. Frank Crosetti, Yank shortstop, is shown sliding to first while Mancuso tries to pick him off in the first inning. McCarthy is the first baseman.

Serve Dinner To Local Visitors

Mr. and Mrs. R. Foppiano of Evergreen avenue, Mrs. Clara Tacchi and daughters Marilyn and Carol and Mrs. Enez Cerratto and daughter Marcella of South San Francisco motored to San Mateo, Sunday of this week, where they visited with friends.

Funeral services for Police Officer William V. McDonald, 55, only brother of George E. McDonald, Daly City, were held in Petaluma, Thursday of last week. For many years a member of the Petaluma police force, he died suddenly, September 27, on his return from a vacation.

In addition to his brother he is survived by his wife, Laura; a son, Edgar, Petaluma; and a daughter, Mrs. Hazel Guerne of Guerneville.

PUPILS VISIT U. C. CAMPUS

Students Are Guests of Board Of Athletic Control—See Oregon Play Bears

The University of California, following its usual custom of inviting high school seniors to visit the campus, selected Petaluma, Albany and Jefferson Union High Schools as the ones to be honored Saturday of last week.

The visiting students were shown about the building and grounds by Miss Carol Kennedy. The library and the engineering departments were especially appealing. An informative talk regarding college life, the activities and rules that govern students while at the University, proved enlightening.

The students were the guests of the Board of Athletic Control at the football game between the Golden Bears and Oregon State College.

Jefferson students who enjoyed the day's activities were Russell Antracoli, Rose Brosnan, Evelyn Clinton, Matilda Farbar, Chet Flansburg.

Elio Fontana, Robert Funge, Angelina Gigli, Plinio Gressani, Raymond Kennedy, Lawrence Lemos, Eleanor Price, Peter Tolovi and Bernard Winn.

Mr. and Mrs. Gray were the sponsors for the event.

THE HARD PART

Someone wrote to Mark Lemon and asked for instruction in the writing of funny paragraphs.

Lemon replied: "It is not at all hard to write funny paragraphs. All you have to do is to procure a pen, some paper and ink, and then sit down and write them as they occur to you. It is not the writing, but the occurring that is hard."—Edinburgh Dispatch.

VALLEJO MAN DIES AFTER COW'S KICK

James Vanderkarr, 68, Vallejo, died, Monday of this week, of injuries suffered when he was recently kicked by a cow he was milking.

Officer Discusses Safety Measures

The students of the Jefferson Union High School enjoyed a realistic talk given by Lieutenant Casserly of the San Francisco Fire Department, Thursday of last week.

He said that "fire was the result of someone's irresponsibility, someone's carelessness. The spark, the light, the cigarette, are all to be carefully watched as they are very dangerous and can cause great fires."

"If a fire occurs and you are among a mob of people, never rush or get excited. It is unnecessary and will only make matters worse. The main thing is to keep cool. The firemen will help as much as they can if those who are involved will help by not becoming wild."

Cassery showed the students a group of interesting slides, which told of the training of firemen and the advantages they have gained as the years progressed.

Traffic Patrol Boys Have Drill

Seventeen boys of the Traffic Patrol of Our Lady of Perpetual Help School, accompanied by Chief of Police James Reardon and Officers Ed Heim and George Hopman, motored to Redwood City, Wednesday morning of this week. The boys participated in a competitive drill. All school traffic patrols of San Mateo County participated.

Following the drill the boys were escorted to the Sequoia Theater in Redwood City to view instructive films.

WHEEL ALIGNMENT

Wheel alignment is affected by air pressure in front tires. Under-inflated front tires have a larger area of contact with the roadbed, causing slight changes in the camber and "toe-in" of the wheels.

A car is also more difficult to control when the front tires are soft. Another effect is that under-inflated tires wear out nearly twice as fast as those which are kept at the proper pressure.

SKIDS ON CURVES

Skidding on curves may be caused by excessive speed, under-inflated tires, smooth tires, springs that are too flexible, or weak shock absorbers.

ON THE MOON

The moon has about 30,000 craters, some of them spreading more than 100 miles.

Music Project Has Postponed Concert

Because of the difficulty and expense involved in 'striking the set' (theatrically speaking) of the present production "Beyond The Horizon" playing at the Alcazar Theater, the Music Project found it necessary to cancel the concert scheduled for October 11, which was to have presented to San Francisco audiences for the first time in a number of years, with Robert Pollak as the guest conductor, and Viska Krokowski, violinist, as soloist. This concert has been postponed until November 22, the week following the closing of the San Francisco Opera season.

A long season of six months with concerts every week by the Federal Music Project terminated with the Brico concert last Tuesday evening at the Veterans Auditorium. Until the Opera and the San Francisco Symphony season are finished, no regular Symphonic series of Federal Music will be given. With the exception of a single concert here and there, the Federal Music Project will devote its time and confine its activities to serving the different public schools with its fine music, and concentrating on its educational outlets. This is indirect line and in keeping with the policy of the Federal Music Project. High Schools and Junior High Schools have been notified that where the auditorium permits, they may have a limited number of symphonic concerts. The immediate response by phone and letter attest to the significant success obtained last year, and the popularity of music in the schools.

Growing in size and importance is the Federal School located at 400 Steiner street teaching violin, piano, voice, harmony and wind instruments to those underprivileged groups who find it impossible to receive this type of education any place else. The school is under the direction of Erich Weiler. He has as his assistant Tomo Yagodka, and a large staff of accredited teachers.

The Bay Region Federal Symphony is to play regularly in the auditorium at Oakland, where there is no Symphonic or Operatic season other than Federal Music. From now on for a number of months the San Francisco concerts will be announced not as a series but as individual performances.

Jaysee And State Offer Two Events

San Mateo Junior College meets San Jose State in two events today on the home field.

In the morning Jaysee plays the State varsity soccer squad in the second intercollegiate game for the Mateans. In the afternoon the Junior College football eleven will play host to the State freshman squad in what will be the fourth game of the season for San Mateo. Last year the Jaysee won over the frosh by an one sided score.

Sees Wet Severe Winter For Nation

Dr. Albert J. Newlin, head of the Ricard Memorial Observatory, Santa Clara University, predicts that the nation in general will have "a wet and severe winter" this year. He bases his prophesy on sun spots which recently became visible. He says there have been four pronounced groups of spots on widely scattered portions of the sun.

FOR BETTER BISCUITS

Recent laboratory tests bear out the old-fashioned cooking rule that biscuit dough should be handled lightly to make tender biscuits.

Parent Teachers Hold Night Meet

A delicious pot luck dinner given in honor of the teachers of Jefferson and Thornton Elementary Schools, Tuesday evening of this week, at Jefferson Hall was enjoyed by a large group of the Colma Parent Teachers Association. Mrs. A. T. Hollingsworth acted as chairman of the committee.

Immediately following, the regular monthly meeting was held. First speaker was Mrs. Fennell, Red Cross nurse of San Mateo, who described the nature of the work carried on in this district. Mr. Ferguson, principal of Jefferson Union High School, introduced a plan for evening classes to be carried out for the benefit of adults wishing to study public speaking, Italian, and other needed subjects. Mrs. Stella Jensen gave an interesting description of her recent trip through twenty-one states and told of her visits through a number of Kentucky schools.

A whist party was announced and will be held, Tuesday afternoon, October 19, at two o'clock. Mrs. Edith Benedetti and Mrs. Kate Scramaglia were appointed to the committee.

Attendance at the meeting numbered thirty-two members.

Hit High Brackets In Melon Contest

More than half a mile of sliced watermelon passed down 200 male throats at the sixty-second annual watermelon feed, recently held on the College of the Pacific campus by the Rho Lambda Phi fraternity.

Two tons of melons supplied the demand this year, and following the actual feed the surplus Klondikes were rolled into sorority houses in keeping with a fifty-year old tradition.

Held annually, the affair is open to all male students on the campus and each year draws a large crowd.

FINDS RARE TOME BY WALTER RALEIGH

A rare edition of Sir Walter Raleigh's "The History of the World" was discovered recently in the San Jose State College library by one of the librarians.

Written while he was imprisoned in the London Tower, the book includes ancient maps and a chronological of years according to the Julian period.

DEMONSTRATE POWER OF MIND OVER MATTER

San Jose State Leader Says Women Are Superior In Games Requiring Skill

Brains, not brawn, make women superior athletes, according to Dr. Irene Palmer, new head of the women's physical education department at San Jose State College.

"Men excel in sports which require endurance and strength, but women prove their superiority in games which require skill, finesse, and brains," she stated recently.

Co-eds are either becoming home bodies, or have become inoculated with the spirit of equality of the sexes, for the trend is away from group games to games which can be played in competition with men, says Dr. Palmer. Badminton and tennis courts are being used more frequently at private homes, and archery is increasing in popularity.

Formerly the head of women's physical education at the University of Southern California, Dr. Palmer notes a decided trend toward individual sports in San Jose.

"Classes which stress individuality such as archery, tennis, badminton and social dancing are crowded. Students here evidently can not get enough of individual activity," the educator believes.

New Law Aimed At Driveway Parking

Motorists who park in front of other people's driveways and block the means of getting a car into or out of the premises violate a law which has been on the statute books for some time. But at the last session of the Legislature a change was made in the law to provide it with additional "teeth." It pointed out.

This change, now in effect, gives full legal authority to police officers to remove cars found parked in front of driveways (except, of course, cars belonging to occupants of the premises) to the nearest garage or other place of safety.

Charges incurred for thus towing away and storing cars blocking the entrance to driveways will be imposed upon the owner of the illegally parked car.

Highlights From San Mateo Jaysee

"Craig's Wife," by George Kelly, has been selected as the term play; tryouts are being completed and work has started to stage the drama in November.

Eighty-four students have been named to the college honor society as a result of fine class work during the spring term.

The college is planning to send a special train load of rooters to the Modesto football game, October 22. Work is already under way on the college bonfire and rally that will precede the battle with San Francisco Junior College, November 6.

Office figures show that San Mateo College now has 1011 students enrolled for the fall semester. Of the number, 545 are men and 466 are coeds. More students are enrolling daily, so that there will be about 1200 for the term.

Lad Celebrates Birthday At Party

Eugene Lagomarsino celebrated his ninth birthday at a party given by his mother Mrs. Hazel Lagomarsino, Saturday afternoon of last week, at the family home on Sullivan avenue.

Following a delightful afternoon, the young guests sat down to the refreshment table, which was gayly decked in the colors of Halloween.

Those present were Georgie Lagomarsino, Phyllis Lane, Audrey and Robert Wall, Betty and Dolores Valentino, Dianne and William Valentino, Margaret and June Berardy, Oscar and Elio Giusti, Jack and William Ferro, and the guest of honor Eugene Lagomarsino.
